

DATINGMATTERS[®]

STRATEGIES TO PROMOTE HEALTHY TEEN RELATIONSHIPS

Thank you for your interest in Dating Matters[®], a comprehensive teen dating violence prevention model developed by CDC to stop teen dating violence before it starts. Dating Matters includes programs for 6th and 7th grade youth and their parents that provide the knowledge and skills they need to prevent teen dating violence and support the development of healthy relationships.

A **community access code** is required to access the Dating Matters 6th and 7th grade parent and youth program materials in PDF or print form. One representative from each community or organization may request a code and distribute it to all staff who will need access to the training and implementation materials. In order to preserve the integrity of the Dating Matters training and training materials, the requestor must also agree to Terms of Use. The access code will allow your

implementation team to complete the Program Facilitator Training, download all implementation materials, and order select materials in print.

To request a community access code, please visit:
<https://vetoviolence.org/apps/dating-matters-hub/dating-matters-user-agreement/>

The Dating Matters Toolkit includes all of the materials and tools needed to carry out each component of the prevention model, including an online training for youth and parent facilitators and guidance for organizations leading implementation in their community. You can find it at
